DELIVERY METHODS

FACILITATED WORKSHOPS

Experienced industry professionals use all the principles of adult learning to deliver interesting and innovative training leaving participants motivated and enthused to use the new tools and techniques in their working environment. Facilitated workshops are subject to sufficient enrolments.

ONLINE AND/OR DISTANCE DELIVERY

We recognise it can be difficult to attend facilitated workshops so all our programs are available as Distance/Online together with facilitator support.

Here at The Pivot Institute we are leaders in the field with our own Pivot Online Learning System (POLS) which provides participants with all content and resources and online classroom opportunities to cover the content in the Certificate.

VIRTUAL CLASSROOM DELIVERY

Regular sessions covering core learning content held in our online classroom.

LEARNING RESOURCES

All learning resources are provided. These include:

- Quality Learner Guides for each cluster of units
- Access to POLS to provide full course material and support for participants regardless of their chosen delivery method
- Ongoing facilitator support
- Relevant handouts and journal articles
- Program material can be customised and branded for your own organisation

RECOGNITION OF PRIOR LEARNING

RPL is an assessment process that enables an applicant to gain recognition of skills and knowledge regardless of how they were achieved. This may include formal or informal learning, work experience, or general life experience. Where RPL is granted you do not have to participate in further training and assessment for skills and knowledge that you already possess.

ASSESSMENT METHODS

The Pivot Institute assessments are aimed at adding value to the individual and their organisation. Assessment with The Pivot Institute is true to the units of competency, but is tailored to the needs of the individual and the organisation. This means that where possible we ensure that the assessment fits into what you are doing in your workplace as part of your daily workplace activities. The result is assessment that is meaningful and valuable to both the participant and the organisation.
